

Successful visit of BrauBeviale 2024 in Nuremberg

The thermowave team reflects on a successful appearance at BrauBeviale 2024 in Nuremberg. As a leading trade fair for the beverage industry, the event offered exciting insights into the entire production chain – from raw materials and filling solutions to packaging and marketing.

Alongside the refrigeration sector, the food and beverage industry is one of thermowave's core areas, making the fair an excellent platform to showcase innovative heat exchanger solutions.

From November 26–28, the team seized the opportunity to build valuable connections and explore trends in beer, mineral water, soft drinks, and spirits. thermowave remains a reliable partner for efficient and sustainable solutions.
